

Affordable because we focus ONLY on equine medication

## AbActive™

### COMPOSITION:

Each sachet contains;  
Probiotic B. coagulans ... 45,000 million cfu (Lactobacillus sporogenes)  
(As enteric coated granules)

### DESCRIPTION:

AbActive™ probiotic helps restore natural intestinal flora, leading to more rapid recovery and better nutrient absorption, easy-to-feed once a day dosages of flavorless blue, enteric coated granules containing a pharmaceutical grade probiotic.

### INDICATION:

Probiotics help restore natural intestinal flora and are a great supplement to help horses that have experienced a shock to its system, such as colic, or even a course of antibiotics. In restoring majority of natural lactic acid bacteria, foods are then more efficiently digested.

### DOSAGE:

#### Treatment:

Recommended dosage: One sachet per 350kg (770lb) per day.  
Frequency: Ongoing

### ADMINISTRATION:

Simply sprinkle AbActive™ onto feed. For fussy eaters mix with molasses or corn syrup then mix with feed, apple or a treat.

### OVERDOSAGE:

Should a massive overdose occur, treat symptomatically and supportively.

### SIDE EFFECTS:

Probiotics occur naturally in the digestive system and treatment has no known side effects.

AbActive  
product information

**INTERACTIONS OR CONTRAINDICATIONS:**

Probiotics are a naturally occurring intestinal flora.

**TOXICITY:**

Probiotics are a naturally occurring intestinal flora.

**WARNINGS:**

Keep out of reach of children.  
Veterinary use only.

**STORAGE:**

Store in a cool dry atmosphere away from extreme heat.  
Store/Transport at 20° to 30°C (68° to 86°F )
