Each sachet contains:
Fenbendazole USP..... 2250mg
(As film coated granules)

DESCRIPTION

AbFen™ is an equine dewormer formulated to treat parasites that can damage a horse's gastro-intestinal and respiratory tracts of easy-to-measure, easy-to-feed, flavourless, orange coloured, film coated granules.

AbFen
product information

INDICATIONS

A wide spectrum anthelmintic for control and treatment of all roundworm (*Parascaris equorum*) infections (both adult and migrating larval stages). At double dosage also safely eliminates encysted small strongyle larvae.

Fenbendazole is safe to use with pregnant and nursing mares and foals.

Large strongyles (*Strongylus edentatus*, *S. equinus*, *S. vulgaris*), encysted early third stage (hyobiotic), late third stage and fourth stage cyathostome larvae.

Small strongyles,

Pinworms (*Oxyuris equi*),

Ascarids (*Parascaris equorum*), and arteritis caused by fourth stage larvae of *Strongylus vulgaris* in horses.

DOSAGE

Control Program:

Single Dose Daily for Five (5) Days

- 7.5mg per kg bodyweight daily for five (5) consecutive days (3.4 mg/lb)
- One (1) sachet of AbFen™ treats a horse up to 300kg (660lbs.) bodyweight
- For foals, use half (½) of a sachet

Double Dose Daily for 5 Days

- 15mg per kg bodyweight daily for five (5) consecutive days (6.8mg/lb)
- Two (2) sachets of AbFen™ treats a horse up to 300kg (660lb) bodyweight
- This treatment is not necessary for foals to take.
- This treatment eliminates encysted small strongyle larvae

Single Dose for One (1) Day

- 30mg per kg bodyweight daily (13.6 mg/lb)
- Four (4) sachets of AbFen™ treats a horse up to 300kg (660lb) bodyweight
- This treatment is not necessary for foals to take
- This treatment eliminates encysted small strongyle.

Double Dose for 1 Day

- 60mg per kg bodyweight daily (27.2 mg/lb)
- Eight (8) sachets of AbFen™ treats a horse up to 300kg (660lb) bodyweight
- This treatment is not necessary for foals to take.
- This treatment eliminates migrating stages of large strongyles in a single dose
- Consult your veterinarian for a control program to meet your specific needs.

ADMINISTRATION

Simply sprinkle AbFen™ dry onto feed. For fussy eaters mix with molasses or corn syrup then mix with feed, apple or a treat.

OVERDOSAGE

Should an overdose occur, treat symptomatically and supportively.

SIDE EFFECTS

Fenbendazole may cause the release of antigens by the dying parasites. This phenomenon may result in either a local or systemic hypersensitive reaction.

INTERACTIONS OR CONTRAINDICATIONS

There are no known contraindications for the use of fenbendazole in horses.

TOXICITY

Fenbendazole appears to be well tolerated in horses.

WARNINGS

Do not use on horses intended for human consumption.
